# MORE POWER. MORE FUN. GUARANTEED.

## ABT ENGINE TECHNOLOGY

The requirement to bring out the best in every engine is part of ABT's family tradition. Whether the task in hand is chip tuning (**ABT POWER**) optimization of the motor management plus turbo charger (**ABT POWER S**) – where performance upgrades are concerned we are in our element and clearly the world's number one for cars by the VW group. Thanks to the experience we have acquired in our many years of professional racing, we are aware that not only power is important, but also durability.

## ABT AERODYNAMICS

If you rate extraordinary dynamics as high as individuality, then you have found the perfect pit crew in the ABT team. Our designers, engineers, technicians and model makers work hand in hand, and the result is definitely highly respectable: a tuning program developed by our company, from the front grill to the rear wing, which we can use to transform your series production vehicle into an impressive character performer.

## ABT EXHAUST TECHNOLOGY

Impressive power is turned into optical and acoustical enjoyment: Thanks to extensive development work and double-walled stainless steel design, ABT exhaust systems and rear mufflers always put on an impeccable performance.

## ABT SUSPENSIONS

It is only the right suspension that makes higher engine power pure pleasure. Also in this field we bring our entire racing experience and hence absolute cutting-edge technology onto the road. ABT suspension springs lower the vehicle and provide for dynamic looks and more stable road holding. The new highlight is the revolutionary ABT ISC suspension (Intelligent Suspension Control). The ISC shock absorbers automatically identify the current road conditions and adjust within split-seconds to your individual driving style.

## ABT SPORTS WHEELS

Elegant or dynamic, modern or classical, silver or titanium – but always professionally balanced down to the last detail as far as weight and handling are concerned – ABT sports wheels perfectly round off the individual performance of your car. After all, they clearly show at a glance that they conform with the highest of demands both on the road and on the racing track and that they do not only look good but also want to be driven.

# THE ABT PASSAT.

## FOLLOWING WIND FOR ONE OF THE TRUE GREATS.

Spacious, proven and the recipient of numerous awards – the VW Passat is a true example of superior craftsmanship with format. And we are of the opinion that, on account of this convincing performance, it is worthy of considerably more than just the „basic standard“. So we are herewith promoting it to the position of our acknowledged number one for dynamism. The rewards for its success: chip tuning, turbo charger, exclusive bodywork components, sports wheels, lowering and ISC suspension. We at ABT see that as a pretty good step up the career ladder.

ABT rear spoiler. Dynamic and tasteful elegance.

ABT front spoiler lip. Gives exclusive sportiness its distinctive character.

ABT AR sports wheel. Diamond-machined with exclusive finish. Optimized in weight, painted anthracite. A class of its own.
