ABT T5 FACELIFT

MORE POWER. MORE FUN. GUARANTEED.

ABT ENGINE TECHNOLOGY

The requirement to bring out the best in every engine is part of ABT's family tradition. Where performance upgrades and optimization of the motor management (**ABT POWER**) are concerned we are in our element and clearly the world's number one for cars by the VW group. Thanks to the experience we have acquired in our many years of professional racing, we are aware that not only power is important, but also durability. **More power. No change of emissions category.** Despite the increase in power, your CO₂ emissions do not increase! And your car remains in the same emissions category as before.

ABT AERODYNAMICS

If you rate extraordinary dynamics as high as individuality, then you have found the perfect pit crew in the ABT team. Our designers, engineers, technicians and model makers work hand in hand, and the result is definitely highly respectable: a tuning program developed by our company, from the front grill to the rear wing, which we can use to transform your series production vehicle into an impressive character performer.

ABT EXHAUST TECHNOLOGY

Impressive power is turned into optical and acoustical enjoyment: Thanks to extensive development work and double-walled stainless steel design, ABT rear mufflers always put on an impeccable performance.

ABT SUSPENSION

It is only the right suspension that makes higher engine power pure pleasure. Also in this field we bring our entire racing experience and hence absolute cutting-edge technology onto the road. ABT suspension springs lower the vehicle and provide for dynamic looks and more stable road holding. For more safer and comfortable driving pleasure made by ABT.

ABT SPORTS WHEELS

Elegant or dynamic, modern or classical, silver or titanium – but always professionally balanced down to the last detail as far as weight and handling are concerned – ABT sports wheels perfectly round off the individual performance of your car. After all, they clearly show at a glance that they conform with the highest of demands both on the road and on the racing track and that they do not only look good but also want to be driven.

THE ABT T5 – THE POWER-FACELIFT

EXCLUSIVE SPORTS PRESENCE AND LOADS OF ABT POWER

The 5th generation of the VW Multivan is ideal for upgrading. No surprise, that ABT is also dedicating itself to its current Volkswagen facelift from a sports dimension. The ABT Power facelift is catapulting the new and fresher face of VW from its regular transport visuals into a new sports dimension.

The increase in performance from 140 to 170 BHP, 400 Nm torque and the technically recommended lowering are great fun! The T5 gets its visual sportiness from its new front, its sidebars and a matching rear skirt with 4-pipe rear mufflers. The rear spoiler, finished in the vehicle's colour, and the tyres with their 19-inch DR sports wheels give a further kick. A powerful and extremely harmonious appearance!

ABT front grille. The exclusive sports look instead of interchangeable VW visuals. Including ABT chrome emblem.

ABT rear spoiler. The spoiler discreetly but recognisably underlines the ABT performance aspiration.

ABT rear skirt. With accompanying 4-pipe rear muffler – a clear signal to all following vehicles!
