# ABT

# MORE POWER. MORE FUN. GUARANTEED.

## ABT ENGINE TECHNOLOGY

The requirement to bring out the best in every engine is part of ABT's family tradition. Where performance upgrades and optimization of the motor management via chip tuning (**ABT POWER**) are concerned we are in our element and clearly the world's number one for cars by the VW group. Thanks to the experience we have acquired in our many years of professional racing, we are aware that not only power is important, but also durability.

## ABT AERODYNAMICS

If you rate extraordinary dynamics as high as individuality, then you have found the perfect pit crew in the ABT team. Our designers, engineers, technicians and model makers work hand in hand, and the result is definitely highly respectable: a tuning program developed by our company, from the front grill to the rear wing, which we can use to transform your series production vehicle into an impressive character performer.

## ABT EXHAUST TECHNOLOGY

Impressive power is turned into optical and acoustical enjoyment: Thanks to extensive development work and double-walled stainless steel design, ABT exhaust systems and rear mufflers always put on an impeccable performance.

## ABT SUSPENSIONS

It is only the right suspension that makes higher engine power pure pleasure. Also in this field we bring our entire racing experience and hence absolute cutting-edge technology onto the road. ABT suspension springs lower the vehicle and provide for dynamic looks and more stable road holding. The new highlight is the revolutionary ABT ISC suspension (Intelligent Suspension Control). The ISC shock absorbers automatically identify the current road conditions and adjust within split-seconds to your individual driving style.

## ABT BRAKES

Driving in a sporty way is great fun but only if you know for sure that any time you want you can bring your car to an immediate standstill. ABT steel-flex brake lines are tested constantly under severe conditions and therefore provide this feeling of certainty. With an ideal pressure point, excellent regulable application and an optimal braking distance – but with significantly less fading, in other words: no decrease in braking power under long-term stress. Thus, ABT brake systems bring everything reliably to a standstill. Except, of course, your driving pleasure.

## ABT SPORTS WHEELS

Elegant or dynamic, modern or classical, silver or titanium – but always professionally balanced down to the last detail as far as weight and handling are concerned – ABT sports wheels perfectly round off the individual performance of your car. After all, they clearly show at a glance that they conform with the highest of demands both on the road and on the racing track and that they do not only look good but also want to be driven.

# THE ABT TOURAN.

## GETS YOU ON THE RIGHT TRACK TO ENJOY DRIVING PLEASURE.

Family station wagon, four wheels to take you on vacation, transporter – as far as practical efficiency is concerned, the Touran is a real all-rounder. And truly one that is also a real pleasure to drive for car lovers: Engine power of up to 170hp, aerodynamics program, sports wheels, lowering, sport brake system and rear muffler including chrome-plated dual exhaust pipes – the ABT “build-up therapy” transforms the utility-minivan into a genuine sports model with huge entertainment value. Ideal for all those hands-on people who nevertheless want to remember what real driving pleasure feels like.

**ABT front spoiler lip.** Powerful optics down to the last detail.

**ABT rear wing.** Dynamic and tasteful elegance.

**ABT AR sports wheel.** Diamond-machined with exclusive finish. Optimized in weight, painted anthracite. A class of its own.
